Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 50. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

THE OLD STORY

Navy Department Officials Have No Word From the Warships.

WHERE IS CERVERA?

Intense Desire For Trustworthy Information On That Point.

WAR CONSULTATION

Between the President, Alger, Long and the Military Board.

DIRECT FROM GEN. GARCIA

Cuban Army Officers Call on Alger and Miles.

General Collazo and Colonel Hernandez Report on Condition of the Insurgents Under Their Command and Seek to Arrange a Plan of Co-Operation With United States Forces—Volunteers at Chickamauga Treated to a Change of Diet—Forty-two Thousand Men Now in Camp—War News in General.

Washington, May 27.—Secretary Long said last evening that no word had come from any of the scouting vessels so numerous in West Indian waters concerning the Spanish flying squadron, wherefore he concluded that Cervera was still in Santiago harbor. Supposedly Schley is lying outside watching the entrance to prevent the egress of the Spanish vessels, but, while there is evidence of a certain kind on that fact there has been no official confirmation of it.

This is a little remarkable in view of the fact that it is only a day's run for one of Schley's swift torpedo-boats from Santiago to a cable port in Hayti. There is also a curious lack of information from the newspaper dispatch boats on this point. It was supposed that the censors might have excised from the dispatches of the newspaper men any reference to the fleet, but this would apply, according to the statement of the navy department officials here, only to that part of the dispatches that might relate to the movements and whereabouts of the United States forces, and the censors' rules would not exclude reference to the Spanish squadron.

Notwithstanding the officials profess unsolicited confidence in their original belief that the Spanish squadron is securely bottled up in Santiago harbor, there is no concealment by them of an

intense desire to secure some absolutely trustworthy information on that point. It is not to be doubted that with the question still open, the beginning of the military operations is retarded, for as long as there exists a possibility of the Spanish naval force being at large, there is an indispensible to start the troop transports for Cuba.

Probably it was this uncertain state of affairs that induced the president to call a consultation at the white house between Secretaries Alger and Long, General Miles and the members of the naval war board, Admiral Sigsbee, Captains Crowninshield and Mahan. It is stated by one of the members of the conference the purpose was to go over the whole situation, from the Philippines to Cuba and Porto Rico. This involved a discussion of the propriety of an immediate advance of the military forces upon Cuba; the credibility of the advices so far had touching the location of the Spanish squadron; the policy of preceding the Cuban expedition, or accompanying it, with one directed against Porto Rico, and finally the extent of the military assistance to be sent to Admiral Dewey at Manila.

None of the members of the conference felt authorized to tell what had taken place, but there are thought to be patent indications of a decision to embark military expeditions in the course of the next few days, whether for Cuba or Porto Rico can only be conjectured. There was a lack of news yesterday from Admiral Dewey and this convinced the naval authorities that there could be little credence placed in the Madrid report of an accident to the Baltimore.

In the rush of military preparations the war department officials have not been able to give much attention to the regulations for the procurement of the 75,000 additional volunteers called for Wednesday by the president. It is still uncertain just how far the national authorities will go toward recruiting these forces themselves nor is it positively known that independent organizations, companies, battalions and regiments, raised by individuals will be accepted en bloc if by so doing the department is required to accept the officers with the men.

COLLAZO AND HERNANDEZ. Cuban Officers Confer With Alger and Miles. Washington, May 27.—Secretary Alger and General Miles conferred yesterday with two officers from the staff of General Garcia—General Enrique Collazo and Lieutenant Colonel Charles Hernandez—who come direct from Garcia's headquarters bearing credentials from him to effect a plan of co-operation with the American forces.

General Collazo and Colonel Hernandez gave an interesting account of General Garcia's forces, surroundings and the general equipment of the Cuban army.

Colonel Hernandez says Garcia has his headquarters at Bayamo, one of the large towns in the central part of the island. It was surrendered by the Spanish forces a few weeks ago after Garcia and his troops had maintained a long siege. General Garcia and his staff, with a bodyguard of several hundred men, are quartered inside the city. The infantry and cavalry are quartered in the suburb of South Bayamo. Tents are not used, but in their place the men hastily constructed coverings made of palm leaves and guinea grass, which are more effective than canvas as a shelter against the hot sun. In all about 3,000 men are thus quartered. They are well armed with Remingtons and Mausers captured from the Spanish. Most of them have machetes but only the officers carry other small arms. The cavalry have small horses, much like the Indian mustangs, hardy and reliable. Mules are used for pack purposes.

FRESH MEAT. Volunteers Were Given a Change of Diet at Chickamauga. Chickamauga National Park, May 27.—There are now 42,000 men encamped at the park. The Ninth New York, Colonel G. James Greene commanding, arrived yesterday. There are 1,010 men in the command. This regiment was organized in 1800 and has preserved its organization intact.

The Second Kentucky regiment also reached the park yesterday. This command numbers 1,037 men and is commanded by Colonel E. H. Gaither. The Second Kentucky and Ninth New York were assigned to the First brigade of the Second Division of the Third corps.

The various commands are beginning military life in earnest. All the regiments that are permanently encamped were given regimental drill yesterday and this will be continued from day to day.

The men were served with supplies of fresh meat for the first time since the arrival of the volunteers at the park and arrangements have been made by the commissary department to supply fresh meat regularly. Sixty carloads of rations have arrived from Chicago and northern cities.

MONTEREY AND BRUTUS. Being Repaired For Service in the Philippines. Mare Island Navy Yard, Cal., May 27.—The United States ship Philadelphia after being thoroughly refitted was undocked yesterday and the Monterey took her place on the dock. The bottom of the Monterey will be scraped and painted after which she will be ready for her trip to Manila.

The collier Peter Jensen (renamed Brutus), purchased by the government with her cargo of 4,800 tons of coal for \$270,000, is also being prepared for sea. Her boilers and engines were inspected and pronounced in excellent condition. Rapidly guns were put on board at

once. She will make the trip to the Philippines in company with the Monterey.

OHIO MEN COMPLAIN. Say They Do Not Get Enough to Eat at Chickamauga. Cleveland, May 27.—Private letters have been received here from two members of the First regiment of Ohio artillery, now stationed at Camp Thomas, Chickamauga, in which serious complaint is made of the fare of the soldiers. Both men say they do not get enough to eat and they complain especially of the lack of fresh meat. One of them says he has lost 20 pounds in weight since he arrived at Camp Thomas.

Second Manila Expedition. San Francisco, May 27.—The transporting of 50,000 troops to the Philippines has set the government agents to work scouring the Pacific ocean for transport vessels. So far only 2,000 troops have been sent to Admiral Dewey's assistance. About 15 more transports are required, together with a half dozen colliers. The second expedition will not leave San Francisco for fully three weeks unless the transports are sent out by twos and threes. In the latter event the Zelandia and China (if the big liner is finally chartered) might be ready to sail in about 10 day's time.

Astor's Battery Accepted. New York, May 27.—The battery offered to the United States government by John Jacob Astor when hostilities first broke out was accepted yesterday in a telegram to H. B. Ely, Mr. Astor's representative in this city, from Lieutenant C. March of the Fifth United States artillery, who has been detailed to command the battery. The new battery will be on the order of what is called in England a mountain battery. The gun-carriages and guns are detachable and are packed on the backs of mules for transportation.

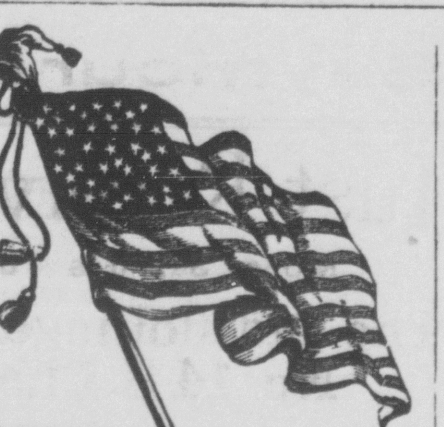

WILL KEEP OPEN. Visitors to Omaha's Exposition Will Be Admitted On Sunday. Omaha, May 27.—By a vote of 24 to 12 the directors of the Transmississippi exposition have decided to keep the gates open of the exposition on Sunday from 1 p. m. to 10 p. m.

In deference to the wishes of some of the religious people in Omaha and elsewhere it was decided, after a long debate, to close during the forenoon. The sale of liquors will not be permitted, and concerts and religious services will be held in the auditorium on Sunday afternoons.

IN A BOTTLE. Note Cast Into the Atlantic Floated For Three Years. Akron, O., May 27.—Three years ago while David E. Wilkie of this city was crossing the Atlantic ocean, he wrote a note, signed his name and address, placed it in a bottle and threw it overboard. He has just received a letter from Henry D. Wellcome of London, in which he states that he had found the bottle and note off the west coast of Africa two months ago. The note was in a good state of preservation.

Kentucky Colored Regiment. Frankfort, Ky., May 27.—Governor Bradley has announced that unless otherwise instructed by the president, the second of Kentucky's regiments on the second call will consist of colored troops.

Treasury Statement. Washington, May 27.—The statement of the condition of the treasury shows: Available cash balance, \$203,809,326; gold reserve, \$173,235,592.

SOMETHING DEFINITE

Will Soon Be Known Regarding Admiral Cervera.

SCHLEY IS OFF SANTIAGO

Sampson Can Render Quick Assistance.

Spanish Minister Refuses to Allow the Question of Privateering Debated In the Senate—All One Thousand Ton Vessels to Be Impressed—Peace Sentiment Said to Be Growing in Madrid Together With the Belief That Spain Has Nothing to Gain by Prolonging the War.

Key West, Fla., May 27.—Definite news of the American squadrons operating in Cuban waters was received here last evening, fully confirming the general situation outlined in former dispatches.

Commodore Schley is believed to be off Santiago de Cuba, and definite information as to the exact situation, in so far as it affects Admiral Cervera's squadron, may soon be expected.

Rear Admiral Sampson is in a position to proceed quickly to the assistance of Commodore Schley with any or all of his ships on receipt of definite word from the commodore, and at the same time he remains within striking distance of Havana.

If, however, Commodore Schley reports that Admiral Cervera is bottled up at Santiago de Cuba, the naval view is that he will be permitted to finish the business at that point with the ships now under his direct command.

QUESTION OF PRIVATEERING.

Spanish Foreign Minister Prohibits Its Discussion in Cortes.

Madrid, May 27.—In the chamber of deputies yesterday, Senor Cassel, director of the Imperial, denounced the alleged acts of some of the American warships as being contrary to international law. He also moved that a pension be granted to the family of the captain of the Reina Maria Christina, who perished at Cavite. The minister of Marine, Captain Annon, accepted the proposition.

In the senate Count Almenas introduced the question of privateering, "in view of the American proceedings." The minister for foreign affairs, Duke Alameda Rio, declared the matter was inopportune and could not be debated. Count Almenas, however, insisted, but the president of the senate refused to allow the discussion to continue.

It is currently reported here that the government has ordered all the Spanish steamers, from 1,000 tons up, capable of steaming a speed of 12 knots, to be impressed as auxiliary cruisers. The Spanish commanders at the various ports, it is added, have been instructed to take charge of such steamers, whether mailboats or otherwise.

FOR PEACE.

Public Opinion in Madrid Said to Be Changing.

London, May 27.—The Madrid correspondent of The Times: "The dominant note of public opinion here is a desire to find some way to honorable peace, as Spain has nothing to gain by an indefinite prolongation of hostilities. 'All idea that France will intervene, however, is now abandoned and hopes are fixed upon the possibility that Duke Almedovar de Rio, the new minister of foreign affairs, will find some fitting occasion on which to take the initiative.'"

The Madrid correspondent of The Daily Mail says: "The political outlook is brighter, and the ministerialists believe that a cabinet crisis can be averted. Captain Annon, minister of marine, declared in the cortes yesterday that when an opportunity presented itself, the cabinet would not fail to do its best to bring about an honorable peace."

BEFORE ANOTHER WEEK.

Americans Will Be Established In Cuba Says Dr. Betances.

Paris, May 27.—In an interview Dr. Betances, representative of the Cuban Republican government in Paris, expresses the firm conviction that the war will be over sooner than is thought in Europe.

"The Americans," he says, "will experience no difficulty in landing troops who will at once be joined by insurgents, who are much stronger than is generally supposed. Nor is there any doubt that Rear Admiral Sampson will strike a heavy blow shortly. The insurgents would rather accept annexation by the United States than the autonomy which Spain would grant. Before another week the Americans will be masters of Havana and firmly established in Cuba."

GRAVE MEASURES.

Madrid, May 27.—El Correo (Liberal) says it is rumored that "grave measures" have been taken against the military chief of the Philippines. The government has received no information on the subject. The Comptesse de Paris has returned to Paris.

Sold to Spain. Hamburg, May 27.—The North German Lloyd steamship Havel has been sold to the Spanish Compania Transatlantica, and has gone to Barcelona.

STARVATION AND DEATH.

What Refugees Say of the Condition of Cuba.

New York, May 27.—The Norwegian steamer Bratsberg, which left Sagua La Grande, Cuba, on May 20, has arrived here with a cargo of sugar and 49 passengers. These passengers are principally from Sagua, although several are from Caibarien and Matanzas. Many are women and children. They report a dreadful state of things in Cuba, starvation and death staring all the poorer class in the face. At Sagua there were only a few improvised and unserviceable gunboats and only a few troops left to guard the city. In Matanzas there were from 12,000 to 14,000 troops. The insurgents were reported to be gaining in numbers daily. Many of the inhabitants had abandoned the towns and villages and fled to the interior.

WANT THEIR VOTES.

New York Will Provide For Her Soldiers Casting Their Ballots.

Albany, May 27.—If the state authorities become convinced that the war will continue beyond the time for the state elections this fall, the governor will convene the legislature in extraordinary session to enact legislation which will permit the volunteers of this state to cast their votes, no matter in what part of the country they may be.

MUSTER PRACTICALLY COMPLETED.

Washington, May 27.—The work of mustering the volunteers into the service of the United States, under the president's first call for troops, is practically completed. Adjutant General Corbin says that the number of volunteers so far reported mustered and prepared for muster is between 121,000 and 122,000. It is not expected by the war department officials that quite the full number called for will be mustered into the army, as nearly all of the states are short from 25 to 100 men of the number called for by their quota.

SEVENTH ILLINOIS CAVALRY.

Chicago, May 27.—Colonel Jones of the department of the department of the lakes, has been notified that the First Illinois cavalry was in readiness for transportation to camp at Chickamauga. Transportation was yesterday furnished to the Seventh Illinois to Washington over the Baltimore and Ohio railroad.

ORDERED IN COMMISSION.

San Francisco, May 27.—Orders have been received to place the Yorktown and Philadelphia in commission as soon as possible, also to transfer the boys from the training ship Mohican and to fill up that vessel with ordinary seamen.

MERRITT IN SAN FRANCISCO.

San Francisco, May 27.—Major General Merritt, governor general of the Philippines, has arrived in this city. All future movements of the Manila expedition will be subject to his orders.

INDIANA'S REPRESENTATIVE.

Washington, May 27.—Indiana contributed one man to the list of second class naval cadets ordered to the warships yesterday. He is Allen Buchanan of Evansville, who goes to the cruiser New York.

REPORT WAS A FAKE.

Halifax, May 27.—There is absolutely no truth in the story of Spanish and French warships being off this port and forts being manned.

FIFTEEN OF HER MEN ILL.

Boston, May 27.—A special to The Herald from Provincetown says the cruiser San Francisco is bound for Boston with 15 of her men ill.

MATCHES IN A WRECK.

Two Carloads Ignited In a Railroad Collision.

Medina, O., May 27.—A wreck on the Ohio and Baltimore railroad is reported from Lodi. A freight train broke in two unknown to the train crew. While the engine pulled up and took on water the other section crashed into the first, smashing several cars into kindling-wood. Two of them being loaded with matches, ignited, and five cars were totally consumed. The conductor received severe injuries.

WILL RENOUNCED.

Mrs. Pullman Claims Her Dower Rights In Preference to Bequests.

Chicago, May 27.—Mrs. George M. Pullman has renounced the terms of her husband's will, and chosen her dower right. The share which, under the dower arrangement, will fall to her is considered to be materially greater than under the provisions of the will. She will secure a one-third life interest in all the Pullman realty and one-third of the personal property absolutely. By the latter alone it is estimated that she will receive more than \$3,000,000.

PECULIAR CASE.

Child, Frightened by Her Mother, Dies Within an Hour.

Bowling Green, Ky., May 27.—"Mother, you frightened me, and I am scared yet," said the little 4-year-old daughter of J. B. Johnson, and in less than an hour she was dead. The child was to all appearances well. She was playing on a lead of kindling wood, and her mother, fearing she would get hurt, called to her, and received the answer given above.

Will Raise a Regiment. Frankfort, Ky., May 26.—Governor Bradley yesterday commissioned Congressman D. G. Colson, Eleventh district, as the colonel to raise one of the two regiments of volunteers for Kentucky.

Weather. Indiana and Illinois—Increasing cloudiness. Ohio—Fair.

Royal makes the food pure, wholesome and delicious.

General Collazo and Colonel Hernandez Report on Condition of the Insurgents Under Their Command and Seek to Arrange a Plan of Co-Operation With United States Forces—Volunteers at Chickamauga Treated to a Change of Diet—Forty-two Thousand Men Now in Camp—War News in General.

Washington, May 27.—Secretary Long said last evening that no word had come from any of the scouting vessels so numerous in West Indian waters concerning the Spanish flying squadron, wherefore he concluded that Cervera was still in Santiago harbor. Supposedly Schley is lying outside watching the entrance to prevent the egress of the Spanish vessels, but while there is evidence of a certain kind on that fact there has been no official confirmation of it.

This is a little remarkable in view of the fact that it is only a day's run for one of Schley's swift torpedo boats from Santiago to a cable port in Hayti. There is also a curious lack of information from the newspaper dispatch boats on this point. It was supposed that the censors might have excised from the dispatches of the newspaper men any reference to the movements and whereabouts of the United States forces, and the censors' rules would not exclude reference to the Spanish squadron.

Notwithstanding the officials profess unshaken confidence in their original belief that the Spanish squadron is securely bottled up in Santiago harbor, there is no concealment by them of an

A prairie fire moves faster than any horse can run. No matter how speedy your mount may be unless you have a good start of the fire it will overtake you. It is the same way with many diseases. Unless you get a fair start, you cannot possibly shake them off. The only hope for anyone who is threatened with serious disease is to start in time, and seek safety before the danger comes in about him.

The best thing for you, if you feel that your full bodily energy is lacking, is to seek the strengthening, power-producing help of Dr. Pierce's Golden Medical Discovery which cures upon the digestive organs that keep rest of appetite and assimilation which transforms the food into nourishing, health-building blood, active muscular force, nervous energy and rugged endurance.

Do not wait until dyspepsia spreads into "liver complaint" and that turns into bronchial trouble which finally verges into consumption. Do not rely upon the delusive stimulus of malt extracts and sarsaparillas and oily compounds; do not allow a designing druggist who seeks only his own profit rather than your health to foist any "boom" medicine upon you. Insist upon the remedy which is backed by thirty years of steadily increasing sales to attest its constant usefulness and popularity.

The experience of Mr. Val Burkard, living at 65 Mohr Ave., Buffalo, N. Y., is given in his own words: "Five weeks ago I followed your advice and took two bottles of Dr. Pierce's Golden Medical Discovery and also two vials of 'Pell's.' I consider myself entirely cured, as there have been no eruptions since I finished the last bottle. I would like everyone to know the true value of Dr. Pierce's medicine as I am confident by persistent use they will cure all ailments for which they are recommended."

intense desire to secure some trustworthy information on that point. It is not to be doubted that with the question still open, the beginning of the military operations is retarded, for as long as there exists a possibility of the Spanish naval force being at large, there is an indisposition to start the troop transports for Cuba.

Probably it was this uncertain state of affairs that induced the president to call a consultation at the white house between Secretaries Alger and Long, General Miles and the members of the naval war board, Admiral Sicard, Captains Crowninshield and Mahal. It is stated by one of the members of the conference the purpose was to go over the whole situation, from the Philippines to Cuba and Porto Rico. This involved a discussion of the propriety of an immediate advance of the military forces upon Cuba; the credibility of the advice so far had touching the location of the Spanish squadron; the policy of preceding the Cuban expedition, or accompanying it, with one directed against Porto Rico, and finally the extent of the military assistance to be sent to Admiral Dewey at Manila.

None of the members of the conference felt authorized to tell what had taken place, but there are thought to be patent indications of a decision to embark military expeditions in the course of the next few days, whether for Cuba or Porto Rico can only be conjectured. There was a lack of news yesterday from Admiral Dewey and this convinced the naval authorities that there could be little credence placed in the Madrid report of an accident to the Baltimore.

In the rush of military preparations the war department officials have not been able to give much attention to the regulations for the procurement of the 75,000 additional volunteers called for Wednesday by the president. It is still uncertain just how far the national authorities will go toward recruiting these forces themselves nor is it positively known that independent organizations, companies, battalions and regiments, raised by individuals will be accepted en bloc if by so doing the department is required to accept the officers with the men.

COLLAZO AND HERNANDEZ.

Cuban Officers Confer With Alger and Miles.

Washington, May 27.—Secretary Alger and General Miles conferred yesterday with two officers from the staff of General Garcia—General Enrique Collazo and Lieutenant Colonel Charles Hernandez—who come direct from Garcia's headquarters bearing credentials from him to effect a plan of co-operation with the American forces.

General Collazo and Colonel Hernandez gave an interesting account of General Garcia's forces, surroundings and the general equipment of the Cuban army.

Colonel Hernandez says Garcia has his headquarters at Bayamo, one of the large towns in the central part of the island. It was surrendered by the Spanish forces a few weeks ago after Garcia and his troops had maintained a long siege. General Garcia and his staff, with a bodyguard of several hundred men, are quartered inside the city. The infantry and cavalry are quartered in the suburb of South Bayamo. Tents are not used, but in their place the men hastily constructed coverings made of palm leaves and guinea grass, which are more effective than canvas as a shelter against the hot sun. In all about 3,000 men are thus quartered. They are well armed with Remingtons and Mausers captured from the Spanish. Most of them have machetes but only the officers carry other small arms. The cavalry have small horses, much like the Indian mustangs, hardy and reliable. Mules are used for pack purposes.

FRESH MEAT.

Volunteers Were Given a Change of Diet at Chickamauga.

Chickamauga National Park, May 27.—There are now 42,000 men encamped at the park. The Ninth New York, Colonel G. James Greene commanding, arrived yesterday. There are 1,010 men in the command. This regiment was organized in 1890 and has preserved its organization intact.

The Second Kentucky regiment also reached the park yesterday. This command numbers 1,037 men and is commanded by Colonel E. H. Gaither.

The Second Kentucky and Ninth New York were assigned to the First brigade of the Second division of the Third corps.

The various commands are beginning military life in earnest. All the regiments that are permanently encamped were given regimental drill yesterday and this will be continued from day to day.

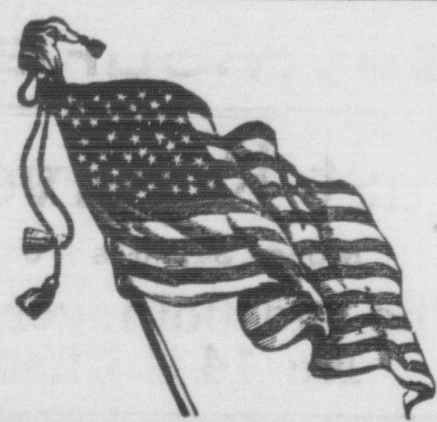

The men were served with supplies of fresh meat for the first time since the arrival of the volunteers at the park and arrangements have been made by the commissary department to supply fresh meat regularly. Sixty carloads of rations have arrived from Chicago and northern cities.

MONTEREY AND BRUTUS.

Being Repaired For Service in the Philippines.

Mare Island Navy Yard, Cal., May 27.—The United States ship Philadelphia after being thoroughly refitted was docked late yesterday and the Monterey took her place on the dock. The bottom of the Monterey will be scraped and painted after which she will be ready for her trip to Manila.

The collier Peter Jensen (renamed Brutus), purchased by the government with her cargo of 4,800 tons of coal for \$370,000, is also being prepared for sea. Her boilers and engines were inspected and pronounced in excellent condition. Rapidfire guns were put on board at

once. She will make the trip to the Philippines in company with the Monterey.

OHIO MEN COMPLAIN.

Say They Do Not Get Enough to Eat at Chickamauga.

Cleveland, May 27.—Private letters have been received here from two members of the First regiment of Ohio artillery, now stationed at Camp Thomas, Chickamauga, in which serious complaint is made of the fare of the soldiers. Both men say they do not get enough to eat and they complain especially of the lack of fresh meat. One of them says he has lost 20 pounds in weight since he arrived at Camp Thomas.

Second Manila Expedition.

San Francisco, May 27.—The transporting of 50,000 troops to the Philippines has set the government agents to work scouring the Pacific ocean for transport vessels. So far only 2,000 troops have been sent to Admiral Dewey's assistance. About 15 more transports are required, together with a half dozen colliers. The second expedition will not leave San Francisco for fully three weeks unless the transports are sent out by twos and threes. In the latter event the Zelandia and China (if the big liner is finally chartered) might be ready to sail in about 10 day's time.

Astor's Battery Accepted.

New York, May 27.—The battery offered to the United States government by John Jacob Astor when hostilities first broke out was accepted yesterday in a telegram to H. B. Ely, Mr. Astor's representative in this city, from Lieutenant C. March of the Fifth United States artillery, who has been detailed to command the battery. The new battery will be on the order of what is called in England a mountain battery. The gunnaries and guns are detachable and are packed on the backs of mules for transportation.

WILL KEEP OPEN.

Visitors to Omaha's Exposition Will Be Admitted On Sunday.

Omaha, May 27.—By a vote of 24 to 12 the directors of the Transmississippi exposition have decided to keep the gates open of the exposition on Sunday from 1 p. m. to 10 p. m.

In deference to the wishes of some of the religious people in Omaha and elsewhere it was decided, after a long debate, to close during the forenoon. The sale of liquors will not be permitted, and concerts and religious services will be held in the auditorium on Sunday afternoons.

IN A BOTTLE.

Note Cast Into the Atlantic Floated For Three Years.

Akron, O., May 27.—Three years ago while David E. Wilkie of this city was crossing the Atlantic ocean, he wrote a note, signed his name and address, placed it in a bottle and threw it overboard. He has just received a letter from Henry D. Wellcome of London, in which he states that he had found the bottle and note off the west coast of Africa two months ago. The note was in a good state of preservation.

Kentucky Colored Regiment. Frankfort, Ky., May 27.—Governor Bradley has announced that unless otherwise instructed by the president, the second of Kentucky's regiments on the second call will consist of colored troops.

Treasury Statement.

Washington, May 27.—The statement of the condition of the treasury shows: Available cash balance, \$203,809,326; gold reserve, \$173,235,502.

SOMETHING DEFINITE

Will Soon Be Known Regarding Admiral Cervera.

SCHLEY IS OFF SANTIAGO

Sampson Can Render Quick Assistance.

Spanish Minister Refuses to Allow the Question of Privateering Debated in the Senate—All One Thousand Ton Vessels to Be Impressed—Peace Sentiment Said to Be Growing in Madrid Together With the Belief That Spain Has Nothing to Gain by Prolonging the War.

Key West, Fla., May 27.—Definite news of the American squadrons operating in Cuban waters was received here last evening, fully confirming the general situation outlined in former dispatches.

Commodore Schley is believed to be off Santiago de Cuba, and definite information as to the exact situation, in so far as it affects Admiral Cervera's squadron, may soon be expected.

Rear Admiral Sampson is in a position to proceed quickly to the assistance of Commodore Schley with any or all of his ships on receipt of definite word from the commodore, and at the same time he remains within striking distance of Havana.

If, however, Commodore Schley reports that Admiral Cervera is bottled up at Santiago de Cuba, the naval view is that he will be permitted to finish the business at that point with the ships now under his direct command.

QUESTION OF PRIVATEERING.

Spanish Foreign Minister Prohibits Its Discussion in Cortes.

Madrid, May 27.—In the chamber of deputies yesterday, Senor Cassel, director of the Imparcial, denounced the alleged acts of some of the American warships as being contrary to international law. He also moved that a pension be granted to the family of the captain of the Reina Maria Christina, who perished at Cavite. The minister of Marine, Captain Anson, accepted the proposition.

In the senate Count Almenas introduced the question of privateering, "in view of the American proceedings." The minister for foreign affairs, Duke Almodovar de Rio, declared the matter was inopportune and could not be debated. Count Almenas, however, insisted, but the president of the senate refused to allow the discussion to continue.

It is currently reported here that the government has ordered all the Spanish steamers, from 1,000 tons up, capable of steaming a speed of 12 knots, to be impressed as auxiliary cruisers. The Spanish commanders at the various ports, it is added, have been instructed to take charge of such steamers, whether mailboats or otherwise.

FOR PEACE.

Public Opinion in Madrid Said to Be Changing.

London, May 27.—The Madrid correspondent of The Times: "The dominant note of public opinion here is a desire to find some way to honorable peace, as Spain has nothing to gain by an indefinite prolongation of hostilities."

"All idea that France will intervene, however, is now abandoned and hopes are fixed upon the possibility that Duke Almodovar de Rio, the new minister of foreign affairs, will find some fitting occasion on which to take the initiative."

The Madrid correspondent of The Daily Mail says: "The political outlook is brighter, and the ministerialists believe that a cabinet crisis can be averted. Captain Anson, minister of marine, declared in the cortes yesterday that when an opportunity presented itself, the cabinet would not fail to do its best to bring about an honorable peace."

BEFORE ANOTHER WEEK.

Americans Will Be Established in Cuba Says Dr. Betances.

Paris, May 27.—In an interview Dr. Betances, representative of the Cuban Republican government in Paris, expresses the firm conviction that the war will be over sooner than is thought in Europe.

"The Americans," he says, "will experience no difficulty in landing troops who will at once be joined by insurgents, who are much stronger than is generally supposed. Nor is there any doubt that Rear Admiral Sampson will strike a heavy blow shortly. The insurgents would rather accept annexation by the United States than the autonomy which Spain would grant. Before another week the Americans will be masters of Havana and firmly established in Cuba."

Grave Measures.

Madrid, May 27.—El Correo (Liberal) says it is rumored that "grave measures" have been taken against the military chief of the Philippines. The government has received no information on the subject. The Comptesse de Paris has returned to Paris.

Sold to Spain.

Hamburg, May 27.—The North German Lloyd steamship Havel has been sold to the Spanish Compania Transatlantica, and has gone to Barcelona.

STARVATION AND DEATH.

What Refugees Say of the Condition of Cuba.

New York, May 27.—The Norwegian steamer Bratsberg, which left Sagua La Grande, Cuba, on May 20, has arrived here with a cargo of sugar and 40 passengers. These passengers are principally from Sagua, although several are from Caibarien and Matanzas. Many are women and children. They report a dreadful state of things in Cuba, starvation and death staring all the poorer class in the face. At Sagua there were only a few improvised and unserviceable gunboats and only a few troops left to guard the city. In Matanzas there were from 12,000 to 14,000 troops. The insurgents were reported to be gaining in numbers daily. Many of the inhabitants had abandoned the towns and villages and fled to the interior.

WANT THEIR VOTES.

New York Will Provide For Her Soldiers Casting Their Ballots.

Albany, May 27.—If the state authorities become convinced that the war will continue beyond the time for the state elections this fall, the governor will convene the legislature in extraordinary session to enact legislation which will permit the volunteers of this state to cast their votes, no matter in what part of the country they may be.

Muster Practically Completed.

Washington, May 27.—The work of mustering the volunteers into the service of the United States, under the president's first call for troops, is practically completed. Adjutant General Corbin says that the number of volunteers so far reported mustered and prepared for muster is between 121,000 and 122,000. It is not expected by the war department officials that quite the full number called for will be mustered into the army, as nearly all of the states are short from 25 to 100 men of the number called for by their quota.

Seventh Illinois Cavalry.

Chicago, May 27.—Colonel Jones of the department of the department of the lakes, has been notified that the First Illinois cavalry was in readiness for transportation to camp at Chickamauga. Transportation was yesterday furnished to the Seventh Illinois to Washington over the Baltimore and Ohio railroad.

Ordered in Commission.

San Francisco, May 27.—Orders have been received to place the Yorktown and Philadelphia in commission as soon as possible, also to transfer the boys from the training ship Mohican and to fill up that vessel with ordinary seamen.

Merritt in San Francisco.

San Francisco, May 27.—Major General Merritt, governor general of the Philippines, has arrived in this city. All future movements of the Manila expedition will be subject to his orders.

Indiana's Representative.

Washington, May 27.—Indiana contributed one man to the list of second class naval cadets ordered to the warships yesterday. He is Allen Buchanan of Evansville, who goes to the cruiser New York.

Report Was a Fake.

Halifax, May 27.—There is absolutely no truth in the story of Spanish and French warships being off this port and forts being manned.

Fifteen of Her Men Ill.

Boston, May 27.—A special to The Herald from Provincetown says the cruiser San Francisco is bound for Boston with 15 of her men ill.

MATCHES IN A WRECK

Two Carloads Ignited in a Railroad Collision.

Medina, O., May 27.—A wreck on the Ohio and Baltimore railroad is reported from Lodi. A freight train broke in two unknown to the train crew. While the engine pulled up and took on water the other section crashed into the first, smashing several cars into kindling wood. Two of them being loaded with matches, ignited, and five cars were totally consumed. The conductor received severe injuries.

WILL RENOUNCED.

Mrs. Pullman Claims Her Dower Rights In Preference to Requests.

Chicago, May 27.—Mrs. George M. Pullman has renounced the terms of her husband's will, and chosen her dower right. The share which, under the dower arrangement, will fall to her is conceded to be materially greater than under the provisions of the will. She will secure a one-third life interest in all the Pullman realty and one-third of the personal property absolutely. By the latter alone it is estimated that she will receive more than \$3,000,000.

PECULIAR CASE.

Child, Frightened by Her Mother, Dies Within an Hour.

Bowling Green, Ky., May 27.—"Mother, you frightened me, and I am scared yet," said the little 4-year-old daughter of J. B. Johnson, and in less than an hour she was dead. The child was to all appearances well. She was playing on a load of kindling wood, and her mother, fearing she would get hurt, called to her, and received the answer given above.

Will Raise a Regiment.

Frankfort, Ky., May 26.—Governor Bradley yesterday commissioned Congressman D. G. Colson, Eleventh district, as the colonel to raise one of the two regiments of volunteers for Kentucky.

THE percentage of illiteracy of Spain
is 81. of the United States, it is only
13. This fact alone accounts for much
of the deception that can be practiced
on the Spaniards by their officials.

THE Southern Indiana railway is in-
creasing its business right along. It is
commendable in the management of the
road that trains are run in a manner to
give the people the best possible service.

It is not infrequent that railroads get
too independent of the people for their
own good. Not so with the Southern
Indiana, for it is managed in a way to
best accommodate the people who pa-
tronize it. As a result both passenger
and freight traffic are increasing on this
line.

Prof. W. E. Henry, state librarian, has
issued the second of a series of state
library bulletins. The first was a
bibliography of all matter in the state
library on questions of taxation. This
second one is a bibliography of all
matter in the state library upon the
problems of cities and towns. It is
prepared with a very convenient index.

This little pamphlet can be of very
great importance to any one who is in-
terested in the problems of municipal
government.

THE present war has demonstrated no
fact more clearly than the need of com-
pleting the canal through the Isthmus
of Panama, connecting the Atlantic and
Pacific oceans. Our people have been
convinced for a long time that the theo-
ry of the canal was correct

but they have never had
a practical lesson until we came to
transfer the battleship Oregon from
one ocean to another. If the canal had
been completed, the Oregon could have
made the trip in about 6,000 miles in-
stead of nearly 14,000 miles around
Cape Horn. All the dangers and
anxiety lest she meet with a superior
Spanish force would have been avoided.

Our geographical position is such that it
imposes on us either the cost of main-
taining what would practically be two
navies, one for the Pacific, the other for
the Atlantic coast, or the construction
of a waterway through which the whole
or a part of the ships on either coast
may pass to the other in any emer-
gency. In the long run it would be
cheaper to construct the canal than to
build and maintain duplicate fleets.

POLITICAL BREVITIES.
The republicans of the Twelfth dis-
trict have nominated Dr. C. B. Stemen,
of Fort Wayne, for congress.

Hon. B. M. Willoughby, of Vin-
ennes, has been nominated for joint
representative from Knox, Gibson and
Vanderburg counties.

At the republican judicial convention
at Rushville yesterday 400 ballots were
cast, but no nomination was made. The
opposing candidates for judge are Judge
D. A. Myers, of Greensburg, and Claude
Kamberg, of Rushville. The number
of delegates from each county is equal.

DIED.

Miss Clara Everhart died at the home
of her mother on East 4th street,
Thursday night about midnight
after a lingering illness of several
months. Though she had been in de-
clining health since the first of the year,
her death was quite sudden and unex-
pected. Just yesterday she enjoyed a
short drive about the city. Miss Ever-
hart was twenty years of age and was
held in high esteem by a large circle of
friends. She graduated from the
Shields High-School two years ago and
had many loving friends among her
school mates. She was a member of
the Presbyterian church where the
funeral will take place at 2 o'clock
conducted by Rev. J. T. Charlton to-
morrow afternoon. The bereaved
family have the sympathy of all.

MARRIED.

quietly repaired last evening at 7:30
o'clock, May 26, 1898, to the home of
Justice A. T. Simons, who said the

wife.

To say that a strawberry is 4 1/2 inches
in "diameter," we will admit, does
seem a little over size and probably to
have said "circumference" as was our
intention in speaking of berries grown
by Mr. Samuel Newby would have been
more readily accepted by those indi-
viduals who are inclined to be techni-
cal. Suffice it to say the berries are all
right and very large in size.

For Defendant.

The case of F. W. Wesner, adminis-
trator, against, C. A. Saltmarsh, on trial
the first of the week, was decided today
in favor of the defendant.

RAILROAD RUMELINGS

C. M. Clarkson, of the Gulf Line, was
in the city today.

B. F. Long of the E. & T. H. was in
the city this morning.

R. H. Richardson and J. W. Thomp-
son, of the Southern Indiana were in
the city last night.

Wrecking foreman Samuel Hodapp
came home last night from a recreation
trip to Cincinnati.

Colfax Kelso, of the Belt road at Bed-
ford, who was shot some time ago hopes
to be able to resume his position in a
few weeks.

John J. Cobb has returned from a
business trip to Evansville.

Miss Blanche Patterson, of Columbus,
who has enjoyed a very pleasant visit to
Miss Jorie Hodapp returned home to-
day.

It is requested that any who can ren-
der assistance in marking soldiers'
graves at the city cemetery meet Mr.
L. W. Jones at the cemetery Sunday
afternoon at 2 o'clock.

Cliff Merkel who has had charge of
engine 207 for a good while lost it last
evening because it was taken to Chil-
licothe, O., to assist in moving the big
stock of freight. This will let Mr.
Merkel take a much needed rest.

Tip Blish received another letter from
his brother, Lieutenant John B. Blish,
who is much pleased because of his re-
cent transfer to the cruiser Vicksburg.
He is still in Cuban waters, where in-
terest is now centering.

Mayr's Proclamation.

As we move away from the foot of a
mountain it seems to rise above sur-
rounding objects, till at last they are
lost in view and it towers up alone in
grandeur. So as we get away, by lapse
of time, from the great results of the
war of the rebellion we forget the little
facts that occurred, and see only the
mighty outlines of national action. But
in order that we forget not the silent
host whose valor and heroism preserved
us a nation, the 30th day of May, the
day that touches the patriotic heart as
does no other day in all the year, has
been set apart as the day on which all
the people, throughout the length and
breadth of the land may gather about
the last resting places of these heroes
and with wreaths and flowers pay their
loving tribute to their memory.

Therefore I, J. Balsley, mayor of Sey-
mour, do earnestly request that all
business be suspended in the city from
1 to 4 o'clock p. m., May 30th, and that
all the people with one accord join
hands in the performance of this sacred
remembrance. J. BALSLEY, Mayor.

He Should Have Brought Them.

A doctor tells a good story in connection
with a lad who, until recently,
was in his employ. It was part of his
duties to answer the surgery bell and
to usher the prospective patients into
the consulting room. One morning
there presented himself at the surgery
entrance a mechanic with whom But-
tons was on speaking terms.

"Hello, Jackson!" he remarked.
"What's the matter with ye?"
"Oh, I just want to see the doctor,"
replied the visitor.

"Have yer brought yer symptoms
with yer?" inquired Buttons. "That's
the first thing he'll ask yer about. If ye
ain't brought 'em, ye'd better pop back,
an' get 'em. He won't be down for a
quarter of an hour, an' he's awful per-
fickler about 'em!"

"And would you believe it?" adds
the doctor, "that fellow was actually
about to act on the boy's advice when
I entered the surgery!"—Pearson's

Holland Wants to Get His Submarine Boat Into Service.—Evidence That Cerveras is Cooped up Not Conclusive—Action of Prize Court.

Special Dispatch to the REPUBLICAN.

INDIANAPOLIS, May 27, (3:10 p. m.)—William McKee, of this city, has been appointed a brigadier general by President McKinley.

Evidence Not Conclusive.

WASHINGTON, May 27, Secretary Long says that the evidence that Commodore Schley has Cerveras and the Spanish fleet cooped up is not conclusive.

Wants to Try His Boat.

WASHINGTON, May 27.—John Holland, inventor of the Holland submarine boat, is on his way to Washington to secure permission to take his submarine boat to Santiago and destroy the mines and Spanish fleet. It is probable that Holland's proposition will not be accepted by the navy department.

KEY WEST, May 27.—The prize court today ordered the release of the Spanish steamers Jover and Catalina and condemned the Ventura, Panam, Pedro and Guido. Guards at Morlar Battery near here were fired upon last night by three strangers.

The Fruits that Are Unfit to Eat.

An article of special timely value in the June Ladies' Home Journal, by Mrs. S. T. Rorer, tells what fruits are healthy and which of them are unfit for food. It very surprisingly shows that some of the fruits in most general use are the most unwholesome, and consequently unfit for food. Indeed, the article upsets many prevailing and accepted ideas regarding fruit, and is of great value in pointing out which to eat and which to leave alone.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

A fact that is not commented upon frequently enough is that large proportion of firms now making fortunes every year, do so solely as a result of advertising. Had they satisfied themselves with only making good goods and asked their success on that card alone, they would never have been known beyond their own limit territory.—Art in Advertising.

When Nature Needs assistance it may be best to render it promptly, but one should remember to use even the most powerful remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Co.

SEYMOUR, INDIANA, FRIDAY EVENING, MAY 27, 1898.

PRICE TWO CENTS

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

Dr. Miles' Heart Cure, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and swooning spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

THE OLD STORY

Navy Department Officials Have No Word From the Warships.

WHERE IS CERVERA?

Intense Desire For Trustworthy Information On That Point.

WAR CONSULTATION

Between the President, Alger, Long and the Military Board.

DIRECT FROM GEN. GARCIA

Cuban Army Officers Call on Alger and Miles.

General Collazo and Colonel Hernandez Report on Condition of the Insurgents Under Their Command and Seek to Arrange a Plan of Co-operation With United States Forces—Volunteers at Chickamauga Treated to a Change of Diet—Forty-two Thousand Men Now in Camp—War News in General.

Washington, May 27.—Secretary Long said last evening that no word had come from any of the scouting vessels so numerous in West Indian waters concerning the Spanish flying squadron, wherefore he concluded that Cervera was still in Santiago harbor. Supposedly Schley is lying outside watching the entrance to prevent the egress of the Spanish vessels, but while there is evidence of a certain kind on that fact there has been no official confirmation of it.

This is a little remarkable in view of the fact that it is only a day's run for one of Schley's swift torpedo boats from Santiago to a cable port in Hayti. There is also a curious lack of information from the newspaper dispatch boats on this point. It was supposed that the censors might have excised from the dispatches of the newspaper men any reference to the fleet, but this would apply, according to the statement of the navy department officials here, only to that part of the dispatches that might relate to the movements and whereabouts of the United States forces, and the censors' rules would not exclude reference to the Spanish squadron.

Notwithstanding the officials profess unshaken confidence in their original belief that the Spanish squadron is securely bottled up in Santiago harbor, there is no concealment by them of an

A prairie fire moves faster than any horse can run. No matter how speedy your mount may be unless you have a good start of the fire it will overtake you. It is the same way with many diseases. Unless you get a fair start, you cannot possibly shake them off. The only hope for anyone who is threatened with serious disease is to start in time, and seek safety before the danger closes in about him. The best thing for you, if you feel that your full bodily energy is lacking, is to seek the strengthening, power-producing help of Dr. Pierce's Golden Medical Discovery which confers upon the digestive organs that keen zest of appetite and assimilation which transforms the food into nourishing, health-building blood, active muscular force, nervous energy and rugged endurance.

Do not wait until dyspepsia spreads into "liver complaint" and that turns into bronchial trouble which finally verges into consumption. Do not rely upon the delusive stimulus of malt extracts and sarsaparillas and oily compounds, do not allow a designing druggist who seeks only his own profit rather than your health to foist any "boom" medicine upon you. Insist upon the remedy which is backed by thirty years of steadily increasing sales to attest its constant usefulness and popularity.

The experience of Mr. Val Burkard, living at 65 Mohr Ave., Buffalo, N. Y., is given in his own words: "Five weeks ago I followed your advice and took two bottles of Dr. Pierce's Golden Medical Discovery and also two vials of 'Pell's.' I consider myself entirely cured, as there have been no eruptions since I finished the last bottle. I think it is the greatest remedy on the globe for blood and digestive disorders. My appetite increased wonderfully and I have also gained flesh. I would like everybody to know the true value of Dr. Pierce's medicines as I am confident by persistent use they will cure all ailments for which they are recommended."

intense desire to secure some trustworthy information on that point. It is not to be doubted that with the question still open, the beginning of the military operations is retarded, for as long as there exists a possibility of the Spanish naval force being at large, there is an indisposition to start the troop transports for Cuba.

Probably it was this uncertain state of affairs that induced the president to call a consultation at the white house between Secretaries Alger and Long, General Miles and the members of the naval war board, Admiral Sigsbee, Captains Crowinshield and Mahan. It is stated by one of the members of the conference the purpose was to go over the whole situation, from the Philippines to Cuba and Porto Rico. This involved a discussion of the propriety of an immediate advance of the military forces upon Cuba; the credibility of the advices so far had touching the location of the Spanish squadron; the policy of preceding the Cuban expedition, or accompanying it, with one directed against Porto Rico, and finally the extent of the military assistance to be sent to Admiral Dewey at Manila.

None of the members of the conference felt authorized to tell what had taken place, but there are thought to be patent indications of a decision to embark military expeditions in the course of the next few days, whether for Cuba or Porto Rico can only be conjectured. There was a lack of news yesterday from Admiral Dewey and this convinced the naval authorities that there could be little credence placed in the Madrid report of an accident to the Baltimore.

In the rush of military preparations the war department officials have not been able to give much attention to the regulations for the procurement of the 75,000 additional volunteers called for Wednesday by the president. It is still uncertain just how far the national authorities will go toward recruiting these forces themselves nor is it positively known that independent organizations, companies, battalions and regiments, raised by individuals will be accepted en bloc if by so doing the department is required to accept the officers with the men.

COLLAZO AND HERNANDEZ.

Cuban Officers Confer With Alger and Miles.

Washington, May 27.—Secretary Alger and General Miles conferred yesterday with two officers from the staff of General Garcia—General Enrique Collazo and Lieutenant Colonel Charles Hernandez—who come direct from Garcia's headquarters bearing credentials from him to effect a plan of co-operation with the American forces.

General Collazo and Colonel Hernandez gave an interesting account of General Garcia's forces, surroundings and the general equipment of the Cuban army.

Colonel Hernandez says Garcia has his headquarters at Bayamo, one of the large towns in the central part of the island. It was surrendered by the Spanish forces a few weeks ago after Garcia and his troops had maintained a long siege. General Garcia and his staff, with a bodyguard of several hundred men, are quartered inside the city. The infantry and cavalry are quartered in the suburb of South Bayamo. Tents are not used, but in their place the men hastily constructed coverings made of palm leaves and guinea grass, which are more effective than canvas as a shelter against the hot sun. In all about 3,000 men are thus quartered. They are well armed with Remingtons and Mausers captured from the Spanish. Most of them have machetes but only the officers carry other small arms. The cavalry have small horses, much like the Indian mustangs, hardy and reliable. Mules are used for pack purposes.

FRESH MEAT.

Volunteers Were Given a Change of Diet at Chickamauga.

Chickamauga National Park, May 27.—There are now 42,000 men encamped at the park. The Ninth New York, Colonel G. James Greene commanding, arrived yesterday. There are 1,010 men in the command. This regiment was organized in 1800 and has preserved its organization intact.

The Second Kentucky regiment also reached the park yesterday. This command numbers 1,037 men and is commanded by Colonel E. H. Gaither.

The Second Kentucky and Ninth New York were assigned to the First brigade of the Second division of the Third corps.

The various commands are beginning military life in earnest. All the regiments that are permanently encamped were given regimental drill yesterday and this will be continued from day to day.

The men were served with supplies of fresh meat for the first time since the arrival of the volunteers at the park and arrangements have been made by the commissary department to supply fresh meat regularly. Sixty carloads of rations have arrived from Chicago and northern cities.

MONTEREY AND BRUTUS.

Being Repaired For Service In the Philippines.

Mare Island Navy Yard, Cal., May 27.—The United States ship Philadelphia after being thoroughly refitted was undocked late yesterday and the Monterey took her place on the dock. The bottom of the Monterey will be scraped and painted after which she will be ready for her trip to Manila. The collier Peter Jensen (renamed Brutus), purchased by the government with her cargo of 4,800 tons of coal for \$270,000, is also being prepared for sea. Her boilers and engines were inspected and pronounced in excellent condition. Rapidfire guns were put on board at

once. She will make the trip to the Philippines in company with the Monterey.

OHIO MEN COMPLAIN.

Say They Do Not Get Enough to Eat at Chickamauga.

Cleveland, May 27.—Private letters have been received here from two members of the First regiment of Ohio artillery, now stationed at Camp Thomas, Chickamauga, in which serious complaint is made of the fare of the soldiers. Both men say they do not get enough to eat and they complain especially of the lack of fresh meat. One of them says he has lost 20 pounds in weight since he arrived at Camp Thomas.

Second Manila Expedition.

San Francisco, May 27.—The transporting of 50,000 troops to the Philippines has set the government agents to work scouring the Pacific ocean for transport vessels. So far only 2,600 troops have been sent to Admiral Dewey's assistance. About 15 more transports are required, together with a half dozen colliers. The second expedition will not leave San Francisco for fully three weeks unless the transports are sent out by twos and threes. In the latter event the Zelandia and China (if the big liner is finally chartered) might be ready to sail in about 10 day's time.

Astor's Battery Accepted.

New York, May 27.—The battery offered to the United States government by John Jacob Astor when hostilities first broke out was accepted yesterday in a telegram to H. B. Ely, Mr. Astor's representative in this city, from Lieutenant C. March of the Fifth United States artillery, who has been detailed to command the battery. The new battery will be on the order of what is called in England a mountain battery. The guncarriages and guns are detachable and are packed on the backs of mules for transportation.

WILL KEEP OPEN.

Visitors to Omaha's Exposition Will Be Admitted On Sunday.

Omaha, May 27.—By a vote of 24 to 12 the directors of the Transmississippi exposition have decided to keep the gates open of the exposition on Sunday from 1 p. m. to 10 p. m.

In deference to the wishes of some of the religious people in Omaha and elsewhere it was decided, after a long debate, to close during the forenoon. The sale of liquors will not be permitted, and concerts and religious services will be held in the auditorium on Sunday afternoons.

IN A BOTTLE.

Note Cast Into the Atlantic Floated For Three Years.

Akron, O., May 27.—Three years ago while David E. Wilkie of this city was crossing the Atlantic ocean, he wrote a note, signed his name and address, placed it in a bottle and threw it overboard. He has just received a letter from Henry D. Wellcome of London, in which he states that he had found the bottle and note off the west coast of Africa two months ago. The note was in a good state of preservation.

Kentucky Colored Regiment.

Frankfort, Ky., May 27.—Governor Bradley has announced that unless otherwise instructed by the president, the second of Kentucky's regiments on the second call will consist of colored troops.

Treasury Statement.

Washington, May 27.—The statement of the condition of the treasury shows: Available cash balance, \$203,889,326; gold reserve, \$173,335,502.

SOMETHING DEFINITE

Will Soon Be Known Regarding Admiral Cervera.

SCHLEY IS OFF SANTIAGO

Sampson Can Render Quick Assistance.

Spanish Minister Refuses to Allow the Question of Privateering Debated in the Senate—All One Thousand Ton Vessels to Be Impressed—Peace Sentiment Said to Be Growing in Madrid Together With the Belief That Spain Has Nothing to Gain by Prolonging the War.

Key West, Fla., May 27.—Definite news of the American squadrons operating in Cuban waters was received here last evening, fully confirming the general situation outlined in former dispatches.

Commodore Schley is believed to be off Santiago de Cuba, and definite information as to the exact situation, in so far as it affects Admiral Cervera's squadron, may soon be expected.

Rear Admiral Sampson is in a position to proceed quickly to the assistance of Commodore Schley with any or all of his ships on receipt of definite word from the commodore, and at the same time he remains within striking distance of Havana.

If, however, Commodore Schley reports that Admiral Cervera is bottled up at Santiago de Cuba, the naval view is that he will be permitted to finish the business at that point with the ships now under his direct command.

QUESTION OF PRIVATEERING.

Spanish Foreign Minister Prohibits Its Discussion in Cortes.

Madrid, May 27.—In the chamber of deputies yesterday, Senor Cassel, director of the Imperial, denounced the alleged acts of some of the American warships as being contrary to international law. He also moved that a pension be granted to the family of the captain of the Reina Maria Christina, who perished at Cavite. The minister of Marine, Captain Anon, accepted the proposition.

In the senate Count Almenas introduced the question of privateering, "in view of the American proceedings." The minister for foreign affairs, Duke Alameda Rio, declared the matter was inoperative and could not be debated. Count Almenas, however, insisted, but the president of the senate refused to allow the discussion to continue.

It is currently reported here that the government has ordered all the Spanish steamers, from 1,000 tons up, capable of steaming a speed of 12 knots, to be impressed as auxiliary cruisers. The Spanish commanders at the various ports, it is added, have been instructed to take charge of such steamers, whether mailboats or otherwise.

FOR PEACE.

Public Opinion in Madrid Said to Be Changing.

London, May 27.—The Madrid correspondent of The Times: "The dominant note of public opinion here is a desire to find some way to honorable peace, as Spain has nothing to gain by an indefinite prolongation of hostilities."

"All idea that France will intervene, however, is now abandoned and hopes are fixed upon the possibility that Duke Almedovar de Rio, the new minister of foreign affairs, will find some fitting occasion on which to take the initiative."

The Madrid correspondent of The Daily Mail says: "The political outlook is brighter, and the ministerialists believe that a cabinet crisis can be averted. Captain Anon, minister of marine, declared in the cortes yesterday that when an opportunity presented itself, the cabinet would not fail to do its best to bring about an honorable peace."

BEFORE ANOTHER WEEK.

Americans Will Be Established in Cuba Says Dr. Betances.

Paris, May 27.—In an interview Dr. Betances, representative of the Cuban Republican government in Paris, expresses the firm conviction that the war will be over sooner than is thought in Europe.

"The Americans," he says, "will experience no difficulty in landing troops who will at once be joined by insurgents, who are much stronger than is generally supposed. Nor is there any doubt that Rear Admiral Sampson will strike a heavy blow shortly. The insurgents would rather accept annexation by the United States than the autonomy which Spain would grant. Before another week the Americans will be masters of Havana and firmly established in Cuba."

Grave Measures.

Madrid, May 27.—El Correo (Liberal) says it is rumored that "grave measures" have been taken against the military chief of the Philippines. The government has received no information on the subject. The Comptesse de Paris has returned to Paris.

Sold to Spain.

Hamburg, May 27.—The North German Lloyd steamship Havel has been sold to the Spanish Compania Transatlantica, and has gone to Barcelona.

STARVATION AND DEATH.

What Refugees Say of the Condition of Cuba.

New York, May 27.—The Norwegian steamer Bratsberg, which left Sagua La Grande, Cuba, on May 20, has arrived here with a cargo of sugar and 40 passengers. These passengers are principally from Sagua, although several are from Caibarien and Matanzas. Many are women and children. They report a dreadful state of things in Cuba, starvation and death staring all the poorer class in the face. At Sagua there were only a few improvised and unserviceable gunboats and only a few troops left to guard the city. In Matanzas there were from 12,000 to 14,000 troops. The insurgents were reported to be gaining in numbers daily. Many of the inhabitants had abandoned the towns and villages and fled to the interior.

WANT THEIR VOTES.

New York Will Provide For Her Soldiers Casting Their Ballots.

Albany, May 27.—If the state authorities become convinced that the war will continue beyond the time for the state elections this fall, the governor will convene the legislature in extraordinary session to enact legislation which will permit the volunteers of this state to cast their votes, no matter in what part of the country they may be.

Muster Practically Completed.

Washington, May 27.—The work of mustering the volunteers into the service of the United States, under the president's first call for troops, is practically completed. Adjutant General Corbin says that the number of volunteers so far reported mustered and prepared for muster is between 121,000 and 122,000. It is not expected by the war department officials that quite the full number called for will be mustered into the army, as nearly all of the states are short from 25 to 100 men of the number called for by their quota.

Seventh Illinois Cavalry.

Chicago, May 27.—Colonel Jones of the department of the department of the lakes, has been notified that the First Illinois cavalry was in readiness for transportation to camp at Chickamauga. Transportation was yesterday furnished to the Seventh Illinois to Washington over the Baltimore and Ohio railroad.

Ordered in Commission.

San Francisco, May 27.—Orders have been received to place the Yorktown and Philadelphia in commission as soon as possible, also to transfer the boys from the training ship Mohican and to fill up that vessel with ordinary seamen.

Merritt in San Francisco.

San Francisco, May 27.—Major General Merritt, governor general of the Philippines, has arrived in this city. All future movements of the Manila expedition will be subject to his orders.

Indiana's Representative.

Washington, May 27.—Indiana contributed one man to the list of second class naval cadets ordered to the warships yesterday. He is Allen Buchanan of Evansville, who goes to the cruiser New York.

Report Was a Fake.

Halifax, May 27.—There is absolutely no truth in the story of Spanish and French warships being off this port and forts being manned.

Fifteen of Her Men Ill.

Boston, May 27.—A special to The Herald from Provincetown says the cruiser San Francisco is bound for Boston with 15 of her men ill.

MATCHES IN A WRECK.

Two Carloads Ignited in a Railroad Collision.

Medina, O., May 27.—A wreck on the Ohio and Baltimore railroad is reported from Lodi. A freight train broke in two unknown to the train crew. While the engine pulled up and took on water the other section crashed into the first, smashing several cars into kindling-wood. Two of them being loaded with matches, ignited, and five cars were totally consumed. The conductor received severe injuries.

WILL RENOUNCED.

Mrs. Pullman Claims Her Dower Rights in Preference to Heirs.

Chicago, May 27.—Mrs. George M. Pullman has renounced the terms of her husband's will, and chosen her dower right. The share which, under the dower arrangement, will fall to her is conceded to be materially greater than under the provisions of the will. She will secure a one-third life interest in all the Pullman realty and one-third of the personal property absolutely. By the latter alone it is estimated that she will receive more than \$3,000,000.

PECULIAR CASE.

Child, Frightened by Her Mother, Dies Within an Hour.

Bowling Green, Ky., May 27.—"Mother, you frightened me, and I am scared yet," said the little 4-year-old daughter of J. B. Johnson, and in less than an hour she was dead. The child was to all appearances well. She was playing on a load of kindling wood, and her mother, fearing she would get hurt, called to her, and received the answer given above.

Will Raise a Regiment.

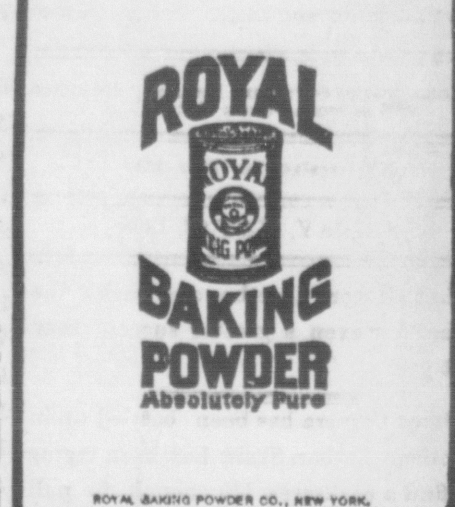

Frankfort, Ky., May 26.—Governor Bradley yesterday commissioned Congressman D. G. Colson, Eleventh district, as the colonel to raise one of the two regiments of volunteers for Kentucky.

OFFICIAL PAPER OF SEYMOUR.

JAY C. SMITH, Editor and Publisher.

Telephone No. 42.

FRIDAY, MAY 27, 1898.

For all work together and make the

year.

Mr. Cervera has been bottled up in

work.

Mr. Simpson wants to go to war,

not as a private. Like many other

men ambitious to be soldiers, he wants

to be a colonel.

The Chicago Record very aptly says:

"You abuse the town in which you

make your living it proves to the lis-

teners that you deserve to starve some-

where else."

The percentage of illiteracy of Spain

is 81. of the United States, it is only

10. This fact alone accounts for much

of the deception that can be practiced

on the Spaniards by their officials.

The Southern Indiana railway is in-

creasing its business right along. It is

commendable in the management of the

road that trains are run in a manner to

give the people the best possible service.

It is not infrequent that railroads get

too independent of the people for their

own good. Not so with the Southern

Indiana, for it is managed in a way to

best accommodate the people who pa-

tronize it. As a result both passenger

and freight traffic are increasing on this

line.

Prof. W. E. Henry, state librarian, has

issued the second of a series of state

library bulletins. The first was a

bibliography of all matter in the state

library on questions of taxation. This

second one is a bibliography of all

matter in the state library upon the

problems of cities and towns. It is

prepared with a very convenient index.

This little pamphlet can be of very

great importance to any one who is in-

terested in the problems of municipal

government.

The present war has demonstrated no

fact more clearly than the need of com-

pleting the canal through the Isthmus

of Panama, connecting the Atlantic and

Pacific oceans. Our people have been

convinced for a long time that the the-

ory of the canal was correct

but they have never had

a practical lesson until we came to

transfer the battleship Oregon from

one ocean to another. If the canal had

been completed, the Oregon could have

made the trip in about 6,000 miles in-

stead of nearly 14,000 miles around

Cape Horn. All the dangers and

anxiety lest she meet with a superior

Spanish force would have been avoided.

Our geographical position is such that it

DIED.
Miss Clara Everhart died at the home
of her mother on East 4th street,
Thursday night about midnight
after a lingering illness of several
months. Though she had been in de-

clining health since the first of the year,
her death was quite sudden and unex-

pected. Just yesterday she enjoyed a
short drive about the city. Miss Ever-

hart was twenty years of age and was
held in high esteem by a large circle of
friends. She graduated from the
Shields High-School two years ago and
had many loving friends among her
school mates. She was a member of
the Presbyterian church where the
funeral will take place at 2 o'clock
conducted by Rev. J. T. Charlton to-

morrow afternoon. The bereaved
family have the sympathy of all.

MARRIED.
Engineer Melvin Boone, of the B. &
O. S. W., and Miss Ella Hardesty
quietly repaired last evening at 7:30
o'clock, May 25, 1898, to the home of
Justice A. T. Simons, who said the
words that made them husband and
wife.

"Circumference" we Mean.
To say that a strawberry is 4 1/2 inches
in "diameter," we will admit, does
seem a little over size and probably to
have said "circumference" as was our
intention in speaking of berries grown
by Mr. Samuel Newby would have been
more readily accepted by those indi-

viduals who are inclined to be techni-

cal. Suffice it to say the berries are all
right and very large in size.

May's Proclamation.
As we move away from the foot of a
mountain it seems to rise above sur-
rounding objects, till at last they are
lost in view and it towers up alone in
grandeur. So as we get away, by lapse
of time, from the great results of the
war of the rebellion we forget the little
facts that occurred, and see only the
mighty outlines of national action. But
in order that we forget not the silent
host whose valor and heroism preserved
us a nation, the 30th day of May, the
day that touches the patriotic heart as
does no other day in all the year, has
been set apart as the day on which all
the people, throughout the length and
breadth of the land may gather about
the last resting places of these heroes
and with wreaths and flowers pay their
loving tribute to their memory.
Therefore I, J. B. Baisley, mayor of Sey-
mour, do earnestly request that all
business be suspended in the city from
1 to 4 o'clock p. m., May 30th, and that
all the people with one accord join
hands in the performance of this sacred
ceremony.
J. B. Baisley, Mayor.

G. A. R. Chickamauga.
During the G. A. R. encampment in
Cincinnati, September 5th to 10th,
round trip tickets from Cincinnati via
the Queen & Crescent route on Sep-
tember 8, 9 and 10 to Chickamauga at
rate of \$5.00, good to return four days
from date of sale. On same dates a
round trip ticket will be sold at rate of
\$7.25, limited to ten days from date of
sale.
These very low rates are made to en-
able old soldiers, their families and vi-
sitors to the city, on the occasion named,
to make a side trip to Chickamauga
(Chattanooga).
The tickets are good for passage on
the fine limited trains of the Queen &
Crescent Route.
The trip is the most inspiring one the
veteran can find, and the rate is such
that few of them will find it impossi-
ble to take it. Remember the rate, \$5.00
for the round trip to visit old Lookout,
Missionary Ridge and ever memorable
Chickamauga via the Queen & Crescent.

Holland Wants to Get His Submarine Boat into Service.—Evidence That Cerveras is Cooped up Not Conclusive—Action of Prize Court.

Special Dispatch to the REPUBLICAN.
INDIANAPOLIS, May 27, (3:10 p. m.).—William McKee, of this city, has been appointed a brigadier general by President McKinley.

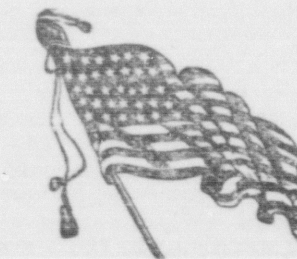

Evidence Not Conclusive.

WASHINGTON, May 27, Secretary Long says that the evidence that Commodore Schley has Cerveras and the Spanish fleet cooped up is not conclusive.

Wants to Try His Boat.

WASHINGTON, May 27.—John Holland, inventor of the Holland submarine boat, is on his way to Washington to secure permission to take his submarine boat to Santiago and destroy the mines and Spanish fleet. It is probable that Holland's proposition will not be accepted by the navy department.

Key West, May 27.—The prize court today ordered the release of the Spanish steamers Jover and Cataline and condemned the Ventura, Panama, Pedro and Guido. Guards at Mortar Battery near here were fired upon last night by three strangers.

The Fruits that Are Unfit to Eat.

An article of special timely value in the June Ladies' Home Journal, by Mrs. S. T. Rorer, tells what fruits are healthy and which of them are unfit for food. It very surprisingly shows that some of the fruits in most general use are the most unwholesome, and consequently unfit for food. Indeed, the article upsets many prevailing and accepted ideas regarding fruit, and is of great value in pointing out which to eat and which to leave alone.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

A fact that is not commented upon frequently enough is that large proportion of firms now making fortunes every year, do so solely as a result of advertising. Had they satisfied themselves with only making good goods and staked their success on that card alone, they would never have been known beyond their own limit territory.—Art in Advertising.

When Nature Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Co.
